## **Statement of Belief**

The founders of Bridge School Malvern set the school up as a response to their Christian faith and values. These Christian values are important to us. They are the motivation for valuing every child and adult, inspiring us to strive our hardest for the best outcomes for each individual. These values underpin all we do at the school and provide an environment and culture where young people can grow in confidence and happiness.

We believe that all young people are unique and of value. We want to help them to recognise their gifts and talents and help support them to develop the character and skills which will enable them to develop their unique role in the world. We want our pupils to embrace the future with hope, faith, confidence and compassion.

We want young people to have the opportunity to be able to find out about Christianity within the context of finding out about other faiths and no faith beliefs; and to be free to explore their own position on these.
